

A Signature Series Parts Line From Johnson's Hot Rod Shop

Perfection Pitman Arm:

The modern vintage styled Vega Pitman Arm from Perfection Hot Rod Parts takes the tried and tested design of a Pitman arm to the next level. The investment cast stainless steel arm is engineered for extreme strength and to fit the Vega sector shaft spline perfectly. The solid Dog-Bone style Pitman arm is offered in a show quality polished finish. Nut and washers sold separately. Patent Pending

Perfection Modern Vintage Steering Wheel:

Take control of the road with our 16" diameter steering wheel from Perfection Hot Rod Parts. Designed for perfect symmetry and the leverage needed for today's hot rods, our precision crafted investment cast stainless steel steering wheels are a true direct bolt-on for both non-tilt and most GM type tilt columns. The modern vintage 4-spoke steering wheel features show quality polished spokes with painted grip and hub. Steering Wheel comes complete with a horn button. GM Tilt steering column adapter sold separately. Patent Pending

Perfection Hot Rod Hole-Shot Brake-Clutch Pedal Assembly:

Put the brakes to your hot rod with Perfection Hot Rod Parts' modern vintage brake-clutch pedal assembly. Manufactured from investment cast stainless steel to compliment the look of any hot rod interior. The brake-clutch pedal features early Ford pedal design with threaded end to accept stock early Ford style pedal pad or use Perfection Hot Rod Parts' modern vintage pedal pad. The brake-clutch pedal assembly is produced in a show quality polished finish. The pedal assembly comes complete with frame rail mounting bracket and hardware to hook up master cylinder into one unit.

Perfection Hot Rod Hole-Shot Gas Pedal:

Take control of your hot rod's acceleration with Perfection Hot Rod Parts' modern vintage gas pedal assembly. Manufactured from investment cast stainless steel to compliment the look of any hot rod interior, the gas pedal features early Ford oval spoon pedal design for consistent pedal contact. The gas pedal assembly is produced in a show quality polished finish and is available in two distinct styles, Hot Rod Hole-Shot or solid oval design. Pedal Pads are sold separately. Patent Pending

Perfection Hot Rod Hole-Shot Shifter:

Being able to bang gears in a hot rod brings delight to the one shifting and displays raw muscle to any on-looker. Perfection Hot Rod Parts has designed a shifter to handle the abuse of running thru the gears. The investment cast stainless steel shifter handle features a double bend Hot Rod Hole-Shot design for strength and beauty finished to perfection with a show polish. The shifter handle is available for most Hurst, Long, and Tremec shifter assemblies. Patent Pending

Perfection Hot Rod Rear Ladder Bars:

The modern vintage styled rear ladder bars from Perfection Hot Rods Parts evolve the age old design of rear radius rods to perfection. Firmly locate the rear end housing of your hot rod while achieving a smoother ride cruising down the road and better traction under hard acceleration. The bars have been engineered for use on either a transverse leaf spring or coil over rear suspension. The ladder bars are manufactured in investment cast stainless steel with a show quality polished finish. Three distinct styles are available, solid Dog-Bone, Hot Rod Hole-Shot, and Deucenberg Slotted. Patent Pending

Perfection Hot Rod Wide-Trac Sway Bar:

Perfection Hot Rod Parts has engineered a better rear sway bar for today's hot rods. The Wide-Trac Sway Bar features a larger diameter bar with an emphasis placed on wider mounting points to the chassis eliminating virtually all the squat and body roll. With true stability built into the Wide-Trac Sway Bar your hot rod will have better performance, acceleration and cornering characteristics. The Wide-Trac Sway Bar is available for inboard or outboard frame rail mounting positions. Two distinct styles arms are available in solid Dog-Bone or Hot Rod Hole-Shot designs with Dog-Bone connector links available for most applications. Speak to one of our representatives to see which Wide-Trac Sway Bar is right for your hot rod. Patent Pending

Perfection Hot Rod Radius Rods:

The modern vintage styled front radius rods from Perfection Hot Rod Parts screams hot rod. We've taken the age old design of split wishbones to new heights. Engineered to firmly locate the front axle under your hot rod while cruising down the road. Fits early Ford spring perches, allowing ample travel of the drag link to move in unison with the front axle. The front radius rods are manufactured in investment cast stainless steel and polished to perfection. Three distinct styles are available in solid Dog-Bone, Hot Rod Hole-Shot, and Deucenberg Slotted designs. Patent Pending

Perfection Hot Rod's "Killer Stance" I-Beam front Axle:

Nothing sets off an early Ford hot rod more than a killer stance. Perfection Hot Rod Parts has designed an I-beam axle to perform as well as look timeless. The specially engineered investment cast stainless steel axle incorporates the style of the '32 Ford heavy axle to give it true hot rod grit. The front axle is offered in a 4" or 5" drop in standard width or the super narrow width for that killer stance made famous by the cars built by Johnson's Hot Rod Shop. The I-beam axle is offered in a show quality finish and polished to perfection. The standard axle measures 47" from king pin centerline and spring perch measures 35" spring perch centerline and super narrow axle measures 45 1/2" from king pin centerline and spring perch measures 33 3/8" perch pin centers. Available for 28-34 Fords. Patent Pending.

Perfection Hot Rod Taillight Tag Mount:

A great hot rod is in the details! Perfection Hot Rod Parts has created a slick tag mounted taillight for early Fords. Designed with a smooth seamless appearance between the license plate frame and taillight stand. Available for standard 32 Ford mount or our shortened taillight stand mount. Comes ready to paint or chrome plate. Patent Pending

Perfection Shorty Taillight Stand:

Perfection Hot Rod Parts introduces their shortened modern vintage '32 taillight stand. We have taken the box stock '32 Ford taillight stand design and just plain made it SLICK. We've molded the mounting flange and stalk for a seamless assembly, then shortened it to look cool. Fits stock '32 taillight buckets, trim rings and lenses or use Perfection Hot Rod Parts stainless steel buckets, polished trim rings and lenses (sold separately). Available for highboys and all 32's with no rear bumpers. Patent Pending

Perfection Hot Rod Taillight Bezels & Taillight buckets:

Refining the details adds a greater appreciation to a hot rod's beauty. Perfection Hot Rod Parts has redesigned the 32 Ford Taillight bucket and bezel assembly to create a virtually seamless bezel to taillight bucket fit. The taillight bezels are manufactured from investment cast stainless steel polished to perfection. Fits stock '32 Ford lens. Available with or without license plate mount. Patent Pending

Perfection Standard Lighted License Plate Frame:

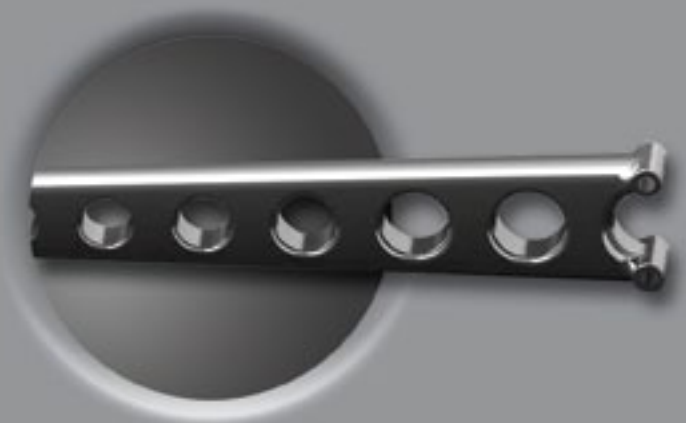

An added touch to an often left out detail is the trusty state id badge of your hot rod better known to Johnny Law as your license plate! Perfection Hot Rod Parts has the answer with our modern vintage license plate frame! Designed with integrated lights to fit today's license plates, the frames are produced in investment cast stainless steel and polished to perfection adding the finishing touch to your hot rod.

Perfection Throw-Back Lighted License Plate Frame:

Add the perfect touch of the 30's with our modern vintage license plate frame from Perfection Hot Rod Parts. Designed with an integrated light to fit the large format license plates of the 1930's. These frames are produced in investment cast stainless steel and polished to perfection adding the finishing touch to your hot rod.
